

COPI #2

SEPTIC

BRITISH COLUMBIA Ministry of Health Planning

AUTHORIZATION TO OPERATE A SEWAGE DISPOSAL SYSTEM

PERMIT NUMBER 75-03673-075	DATE OF APPROVAL 15/1/80	NAME OF OWNER ...	NAME OF CONTRACTOR ...
--------------------------------------	------------------------------------	-----------------------------	----------------------------------

STREET ADDRESS / GENERAL LOCATION

AS NOTED ABOVE, to be completed by the contractor or applicant: PLEASE COMPLETE AS BUILT & LEAVE ON SITE FOR FINAL APPROVAL	INSTALLED AS PER REGULATIONS ☒ Yes ☐ No	SIGNATURE OF OWNER / AFFILIANT _____
--	---	---

The Ministry of Health does not guarantee the useable life of the sewage disposal system. The life of the system is affected by the use and maintenance of it. Pump out the septic tank every 2-3 years. For servicing of package treatment plants, consult your local service agent. For services guarantees, consult your local sewage disposal contractor. If the system needs repair or modification, a new permit is required. If the system is not authorized for backfilling and if corrections are required, a re-inspection fee of \$100 must be paid for each time the Public Health Inspector checks to see that the faults have been corrected.

SEWAGE DISPOSAL SYSTEM
**SEWAGE APPLICATION
APPEAL INFORMATION**

The Environmental Appeal Board is established under section 11 of the Environment Management Act. Appeals are heard by a panel of the Board. This ensures that sewage permit application process is administered openly and fairly. It also provides the public the right to an independent appeal process.

If a person is approved by the issue or the refusal of a permit for a sewage disposal system, they may appeal that ruling to the Environmental Appeal Board. On hearing an appeal, the Environmental Appeal Board may not affirm, vary, or rescind the ruling under appeal.

A person who is issued a permit must post a public notice, provided by the Ministry of Health, which must contain a site map, the conditions of the permit or authorization, a description of how an appeal of the decision to issue the permit or authorization is commenced, and a reference to the time period for commencing that appeal. The public notice must be posted in a conspicuous place(s) on the property not more than 8 days after the date it was issued and must remain posted for 60 days from the date it was issued.

In addition to posting a public notice if the estimated sewage flow is more than 4,546 litres (1000 U.S.) per day, a notice must be published in the newspaper in the area.

I understand that my neighbours or any other aggrieved parties have 30 days from the date of issuance of a decision on the permit and that the permit may be challenged by the Environmental Appeal Board. I am accepting a conceptual responsibility for any construction that I may do during this time should the Environmental Appeal Board uphold the appeal and revoke my permit.

and

I, as registered owner of the property, hereby authorize Pete Giesbrecht as my agent for the purpose of applying for a permit to construct and for the purpose of constructing my proposed sewage disposal system.

Legal description of property:

LOT 3 PLAN 34133 SECTION 33

DISTRICT 19 STREET 7280 Black Rd.

APPROVED 9 MAY 2010
